

## SCIENTIFIC PROGRAM

### **REtroperitoneal Sarcoma SURGery** **9<sup>th</sup> Edition**

Fondazione IRCCS Istituto Nazionale dei Tumori  
(Via Venezian, 1 – 20133, Milano)  
Milano, April 27-28, 2023

**Endorsement SICO, ISG, ESSO, SIC, NeValeLaPena Tarpswg**

**Director, Alessandro Gronchi**  
**Scientific Program, Marco Fiore**

Webinar (FAD sincrona)

Indirizzo fisico piattaforma: Viale Carducci 50 – 40125 Bologna (BO)

Indirizzo web piattaforma: <https://fad.mitcongressi.it>

ACCREDITAMENTO ECM PER MEDICI- infermieri

#### RATIONALE

Retroperitoneal sarcomas (RPS) are rare cancers representing only 0.2% of cancers in adults with an average annual incidence of approximately 2.7 cases per million.

These tumors originate in the retroperitoneum (“back of the abdomen”) and can reach massive size before detection. In fact, the median tumor size on presentation is approximately 20–30 cm. Overall, RPS tend to cause local morbidity rather than metastasize.

The mainstay of treatment for RPS is surgical resection, and complete resection is the only chance for potential cure.

The management of RPS can be challenging and in individual cases, radiation and systemic therapy may be beneficial in both primary and recurrent disease.

**Endorsements to be obtained: SICO, ISG, SIC, NeValeLaPena, TARPSWG**

**Application to run the course as an ESSO educational event is submitted**

**Director, Alessandro Gronchi**  
**Scientific Program, Marco Fiore**

## Preliminary Program

**Thursday April 27 , 2023 from 15.00 to 18.00 CET**

10'	<b>[LIVE] Introduction</b> Dr. Alessandro Gronchi
7'	<b>[Pre-recorded] Preoperative biopsy: can the radiologist's contribution make the difference?</b> Dr. Carlo Morosi
3'	<b>[LIVE] Q&amp;A</b>
7'	<b>[Pre-recorded] Radiation therapy: different technical options in retroperitoneal sarcoma</b> Dr. Claudia Sangalli
3'	<b>[LIVE] Q&amp;A</b>
7'	<b>[Pre-recorded] Neoadjuvant vs adjuvant approach: PROs and CONs</b> Dr. Roberta Sanfilippo
3'	<b>[LIVE] Q&amp;A</b>
15'	<b>[Pre-recorded] Standard surgical procedures for liposarcomas and leiomyosarcomas</b> Dr. Marco Fiore
3'	<b>[LIVE] Q&amp;A</b>
15'	<b>[Pre-recorded] Beyond technical limits in resectability: when is it worthy?</b> Dr. Alessandro Gronchi
3'	<b>[LIVE] Q&amp;A</b>
7'	<b>[Pre-recorded] Any role for mini-invasive surgery in retroperitoneal sarcoma?</b> Dr. Dario Callegaro
3'	<b>[LIVE] Q&amp;A</b>
7'	<b>[Pre-recorded] Pelvic sarcomas</b> Dr. Stefano Radaelli
3'	<b>[LIVE] Q&amp;A</b>
7'	<b>[Pre-recorded] Morbidity in RPS surgery and approach to frail patients</b> Dr. Chiara Colombo
3'	<b>[LIVE] Q&amp;A</b>
20'	<b>[Pre-recorded or LIVE] TARPSWG Lecture</b> <b>Profiling the Sarcoma Surgeon: state of the art</b> Dr. Chandrajit Raut, Harvard University – Brigham and Women's Hospital/Dana Farber Cancer Institute, TBC
10'	<b>[LIVE] Conclusion</b> Dr. Alessandro Gronchi and panelists
136' total	

## Friday April 28, 2023

13:15 – 14:00 CET **Welcome – Sponsor Booth**

14:00 – 20:00 CET **Live Surgery**

Primary RPS surgery live broadcast from INT surgical theatre (Dr. Alessandro Gronchi, Dr. Marco Fiore)

During live surgery interactive section with participants:

- Re-live surgeries (RPS, Pelvic Sarcoma, IVC Sarcoma)
- Case patients
- Polls to participants
